

# Ryan W. Ramsey

---

## **Objective**

*To attain a position within a professional, progressive company with lasting project load that will hone my current skills, create new skills, and establish healthy, long-lasting relationships within the company and the community.*

## **Education**

September 2005 – Current  
*Oregon State University*  
Corvallis, OR

### **Bachelors of Science in Civil Engineering (expected: June 2009)**

- Cumulative GPA: 3.0

- Relevant Coursework: Concrete Structures, Steel Design, Hydraulics, Fluid Mechanics, Structural Theory, Electrical Fundamentals, Project Management.
- Relevant Projects: Structural Steel bridge design team.

### **EIT (Engineer In Training) certification, attained January, 2009**

August 2001 – May 2003  
*San Juan College*  
Farmington, NM

### **AAS Civil Drafting and Design**

-Cumulative GPA: 3.32

- Relevant Coursework: Piping design, Statics and Strengths of Materials, Construction Practices and Estimating Procedures.

## **Professional experience**

April, 2007 – Ongoing (seasonal)  
*ACM Engineering*  
Bend, OR

### **Engineering Technician**

- Construction Drawings for public and private development.
- Code requirement investigations for varying municipalities.
- Subdivisions
- Residential-to-commercial conversion
- Commercial development.
- Software Utilized: AutoCAD Civil 3D

August, 2006 – April, 2007  
*Central Oregon Builders, Inc*  
Redmond, OR

**Project Manager**

- Project operations:
  - Parkland Subdivision, Redmond, OR: 90-lot single and multi-family subdivision
  - Foursquare Corner, Redmond, OR: 3-story downtown Retail/Office/Residence
- Daily Communications with contractors, subs., and supervisors
- Software Utilized: AutoCAD Civil 3D, MS Excel, MS Project

May 2003 – August 2006  
*Anderson Engineering and Surveying, Inc*  
Redmond, OR

**Engineering Technician**

- Client, city council, and contractor meetings
- Pre-development analysis, drafts, and submittals
- Construction drawings and related revisions
- Site visits
- Assistant to survey crews
- Adherence to strict local and state development codes.
- Projects include:
  - Subdivisions:
  - Residential-to-commercial conversions
  - Commercial development
- Software utilized: AutoCAD 2004 and Eagle Point land development.

**Interests and Activities**

Interests involve alternative energies with emphasis on wind turbines and the use of magnetics.

Hobbies include Mountain Biking, Fly-fishing, Golf, Camping, and Family activities.

Little League Baseball coach 2004 - 2007.

Member of IMBA – (International Mountain Bike Association), a non-profit group organized to promote stewardship and knowledge of local and national public trail systems.

Additional Group Memberships:

- American Society of Civil Engineers, 2008
- Associated General Contractors, 2008
- American Congress on Surveying and Mapping, 2008

**Summary of qualifications**

Prior to 2003, my work portfolio consists of 2 years of custom home construction (CO, NM), 4 years as shift supervisor for Victorian millwork plant (Durango, CO), and a year working part time with the City of Farmington, NM to update water rights maps.

I have approximately 6 years of drafting experience, attained through school and work, and I am confident with my abilities to perform complex AutoCAD and manual drafting operations.

I am proficient in Microsoft Excel, Word, PowerPoint, and Access with additional experience using QuickBooks, Microsoft Project, and ArcView GIS.

I have been involved in a handful of field surveys involving the use of such tools as theodolites, laser levels, total stations, and GPS units and I am skilled in the process of boundary and alignment monumentation.

I am intuitive and analytical regarding problem solving.

I have high work schedule flexibility, am a great team player, and strive to achieve team cohesiveness.

To whom it may concern:

I will be graduating from Oregon State University with a Bachelors in Civil Engineering in June of 2009 and will be looking to attain full-time employment. I have passed the Fundamentals of Engineering exam and will be taking and passing the Fundamentals of Surveying exam in April. My areas of interest lie in the fields of transportation, roadway design, infrastructure, surveying, and structures. It is my sincere hope that a position within your organization will be the fit I am looking for.

As you will see on the following resume, I have a varied and extensive employment history. My record is a compilation of formal education from accredited colleges and universities, an early construction background, managerial/supervisory background, and an extensive period of civil design experience from professional firms.

My experiences have allowed me a brief insight into a wide range of disciplines, each a little more advanced and progressive than the one before. It is my hope that your organization has the potential to bring all of these disciplines and my interests together to advance both my understanding of the civil engineering field and my abilities.

I welcome the chance to discuss any openings for which both your company and I will mutually benefit. If you will contact me at (541) 350-9851, we can schedule a meeting.

Thank you for your consideration.

Sincerely,

Ryan Ramsey
