**Dr. Andre Barbosa and OSU CCE co-organized a "Workshop on Multi-Hazard Analysis of Structures using OpenSees", which was held on July 3 and July 4, 2014 in Porto, Portugal.** This followed the "OpenSees on the Road Workshop" held in Corvallis in November 2013, which was co-organized with Dr. Michael Scott. The multi-hazard workshop highlighted ongoing work of OpenSees Users and Developers and set future research and implementation needs to continue the ongoing transformation of the OpenSees, a software framework originally developed for earthquake engineering simulations, into the next-generation multi-hazard simulation software framework. More information about the workshop, as well as the final program, [is available online.](#)
