

Uniform Traffic Control Devices Workshop

This webinar is designed for persons responsible for signing, signalization, and road marking. The class provides instruction and practice in the use of the Manual on Uniform Traffic Control Devices and the Oregon supplements to the Manual. Changes in the 2009 Manual will be addressed.

- Overview of MUTCD
- Signs Introduction
- Regulatory Signs
- Warning Signs
- Guide & Information Signs
- Signals
- Pedestrian & Special Traffic Signals
- Pavement Markings
- Delineators & Colored Pavements
- Retroreflectivity of Signs
- School Zones
- Pedestrian & Bicycle Facilities
- Traffic Islands & Roundabouts
- Object Markers & Low Volume Roads
- Low Volume Road Issues: Legal Implications & Guardrails

OBJECTIVE

This webinar is designed for all people working in the traffic field including engineers, technicians, educators, and enforcement personnel. The course provides a comprehensive coverage of the basic fundamentals to analyze and solve traffic problems. Participants will become familiar with the problem-solving techniques and data-gathering methods for both urban and rural traffic problems.

INSTRUCTIONAL STAFF

Instructors are professionals practicing in Oregon.

SCHEDULE

The webinar is from 8:30 am to 12 pm daily.

ENROLLMENT

Please register online (see below). If a registration must be canceled, a full refund can be made only if a notice of withdrawal is received at least one week prior to the course starting date. A fee of one-half of the course tuition will be charged for cancellations after that period. Substitute attendees are encouraged.

Registration fees cover tuition and course materials.
