Traffic Safety Technical Assistance

**PROTECTED INTERSECTION DESIGN CONSIDERATIONS**

Tuesday, August 23, 2022  
1:00-2:30 p.m.  
Technical Assistance Webinar

The technical assistance workshop is focused on the design details of protected intersections to accommodate pedestrians, cyclists as well as vehicles. The webinar will focus on design details to accommodate vulnerable pedestrians. There

The webinar is designed for those who work in the transportation and transit field including traffic engineers, technicians, and transportation design professionals who want to gain an in depth understanding of the design of protected intersections for vulnerable pedestrians. It is anticipated that there will be a discussion of the accommodation of micro mobility device users. Attendance at the webinar is limited so that there can be active discussion and dialogue.

**INSTRUCTIONAL STAFF**  
Taundra Mortensen, P.E, ACTCP Senior ADA Standards Engineer, ODOT  
Rodger Gutierrez, Bicycle and Pedestrian Design Engineer, ODOT

**SCHEDULE**  
Tuesday, August 23, 2022 from 1:00-2:30 pm.
